## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendments to the specification and abstract of the disclosure in the preliminary amendment filed 3/3/06 are acknowledged and accepted.
2. The cancellation of Claims 1-16 in the preliminary amendment filed 3/3/06 is acknowledged and accepted.
3. The addition of Claims 17-34 in the preliminary amendment filed 3/3/06 is acknowledged and accepted.

### ***Election/Restrictions***

4. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, Claim(s) 18, 21-22, drawn to a scanning microscope, including particulars of the optical system including a movable focusing device.

Group II, Claim(s) 19, 30-33, drawn to a scanning microscope, including specifics of the optical component.

Group III, Claim(s) 23-27, drawn to a scanning microscope, including specifics of the optical system being replaceable, via use of a supply device which stores a second optical system.

Group IV, Claim(s) 28-29, drawn to a scanning microscope, including particulars of the optical system being able to adjust the size of the image of the optical component.

Claim 17 links Groups I-IV. Claims 20 and 34 will be examined along with the elected invention only if one of Groups I-IV is elected.

5. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:  
For each of Groups I-IV, each of the listed groups has special technical features not required for the other group. The special technical features exclusive to each group are listed above in the listing of the groups.
6. A telephone call was made to Erik R. Swanson (212-736-1940) on 3/11/08 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arnel C. Lavarias whose telephone number is 571-272-2315. The examiner can normally be reached on M-F 10:00 AM - 6:30 PM EST.
